### WHY YOU ARE NERVOUS

he nervous system is the slarm system

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected,

leads straight to a breakdown. To correct pervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

ested in our little library should ar range to attend this entertainment. The proceeds will be used to reduce the indebtedness of the association. The present attractive building on Church street, is the result of a great deal of hard work of a few supported To maintain it and get it out of debt it is necessary to hold some sort of for all expenses. Again it is desired to establish a reading room for the benfit of all whether a subscriber or extra compensation to the librarian for the necessary extra time which has to be given. The entertainment of the 14th is the first effort of the committee to raise funds to meet these expenses and as we know his entire section is not only proud of our library; but interested in its success we hope they will prove their interest by buying tickets and attending the evening of the 14th. Next week we will tell our readers where they can secure their tickets in advance. The admission will be within reach of all. Thirtyfive cents for reserved seats; 25 cents for admission; 15 cents for children. Do not forget the date, June 14th, at School Hall.. Dorsetites away from Home can send their money and we will send them their tickets. Do it now before you forget.

#### Wade Inn Notes

Among those registered during the past week, besides regular boarders. Fair Haven; Mrs. Clifton Kent, Dorset; Mrs. M. L. Ellis, Fair Haven; F. H. Shepard, Fair Haven and Dor-Houston, Jr., Troy.

#### STATE NEWS

Stanley W. Clapp, son of Pearl T.

Miss Mabel Powers, stenographer Richford, was run over just as she was leaving the office of the company and was about to cross the street.

#### CHANGE IN POSTAL

Larger postal savings deposits will now be accepted at the post office. This is made possible by an important amendment to the Postal Savings Act just approved by President Wilson. A postal savings depositor may now have

an account amounting to \$1,000 upon which interest will be paid. Formerly \$500 was the maximum amount he could have to his credit. This enlargement of postal savings facilities will be very gratifying to thousands of depositors who have already reached the old \$500 limit and are anxious to entrust more of their savings to Uncle Sam. Another feature of the amend ment that will avoid further embarrassment to the public and to postal officials is the doing away with the limit on amount that could be accepted from a depositor monthly. Under the old law only \$100 could be deposited in a calendar month. The amendment abolishes this restriction. While the Postal Savings System has already proved a signal success as shown by the fact that more than half-a-million depositors have over eighty million dollars standing to their credit, still it has fallen short of meeting the full demands of the public because of the restrictions which have now been eliminated. Postmaster General Burleson and Third Assistant Postmaster General Dockery have been tireless in their efforts to secure a modification of the limitations and the new liberal izing legislation is particularly grati-

## SAVINGS LAWS 75 years ago everyone wore homespun-

and, likewise, everyone used hand-mixed paint. To-day, when machine-spun cloth is so much better and cheaper, no one would think of wearing homespun. Many people are still using hand-mixed paint, however, because they do not know that

will save them money and labor. Devoe Lead and Zinc Paint is simply made of the same ingredients the old-time painter used: Pure White Lead, Pure White Zinc, and Pure Linseed Oil. The only difference is that Devoe is mixed by machinery, 500 gallons at a time. Therefore, it is always absolutely uniform in strength, color and covering capacity.

We guarantee Devoe Lead and Zinc Paint to be pure. We know it contains no whiting, silica or other worthless materials. Stop in and ask for Color Card.
